Boris.Vabson@gmail.com

Bio: Boris Vabson, Ph.D. is a nationally recognized health economist, with expertise at the intersection of health care, business, analytics, data, and policy. He is currently CMS's senior advisor on Medicare Advantage, overseeing MA strategy for CMMI and the agency as a whole. He was previously a faculty member at Harvard Medical School, as well as a nonresident fellow at the American Enterprise Institute and the University of Southern California's Schaeffer Center.

Through his work, Dr. Vabson examines major policy questions in Medicare and Medicaid, focusing on the ongoing privatization of these programs. His research has compared the performance of Medicare Advantage to Traditional Medicare along key policy relevant dimensions. He has also examined differences in performance within Medicare Advantage, across different types of MA plans, and identified the types of plan and payment designs delivering optimal outcomes. To support novel research designs and findings, Dr. Vabson leverages unique and highly detailed data, typically obtained through close partnerships with major healthcare entities.

Dr. Vabson has previously held academic appointments at Stanford University and the University of California, Berkeley. He has also served as a strategic adviser to major health tech companies. His research has been published in peer-reviewed journals including *American Economic Review*, *AEJ: Economic Policy*, *Journal of Public Economics*, *Journal of the American Medical Association*, and *Health Affairs*. In addition, his work has been covered by *Bloomberg News*, the *New York Times*, *Los Angeles Times*, and other major news outlets.

Dr. Vabson received an MS and PhD in applied economics from the University of Pennsylvania's Wharton School and an AB in economics and mathematics from Dartmouth College.

Personal Information: US Citizen
